Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Sunday 18 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Remaining settled and dry.

Today:
A cold start with hazy sunshine and light winds, brightest in the east. Remaining dry into the afternoon with increasing cloud. Feeling colder in the northwest under cloud, but warmer towards the brighter southeast. Maximum temperature 14 deg C (57 deg F).

Tonight:
During the evening and overnight patchy cloud gradually clears, with lengthy clear spells developing from the east. A cold night with a localised frost and light winds. Minimum temperature -3 deg C (27 deg F).

Monday:
A frosty start for many with plenty of sunshine through the day and feeling rather warm. Patchy cloud increasing through the evening and overnight producing a largely frost-free night. Maximum temperature 17 deg C (63 deg F).

Outlook for Tuesday to Thursday:
Cloudier on Tuesday with outbreaks of rain later. Cloudy and breezy early Wednesday before turning brighter with sunny spells. Dry with plenty of sunny spells on Thursday.
